## Essential Oil Patty Recipe

### Liquid (1<sup>st</sup>)

- 1) 2 cups or 1 Pint Tea Tree Oil
- 2) 2 cups or 1 Pint Camphor White
- 3) 1 cup or 1/2 Pint Orange Sweet
- 4) 6 cups or 3 Pint Eucalyptus
- 5) 2 ¼ cup or 1 Pint + ¼ cup Lemongrass
- 6) 2 cups or 1 Pint Peppermint Or Wintergreen (we use peppermint)

### Crystal (2<sup>nd</sup>) need to crush fine or make liquid

- 1) 2 cups or 1 Pint Menthol Crystals
- 2) 26 cups or 13 Pint Thymol Crystals
- 3) (all the above can be purchased from The Lebermuth Company, Inc.)
- 4) 2 cups or 1 Pint Copper Gluconate (can be purchased from Jost Chemical)
- 5) 25 lbs. Powdered Sugar

### Sugar (3<sup>rd</sup>)

- 1) 50 lbs. Granulated Sugar
- 2) Grease (4<sup>th</sup>)
- 3) 25 lb. Crisco (Cake icing shorting)

Scientists say you should replace every 60 days or should be given every 60 days.  
1 lb. = 6 patties but I am doing 1 lb. = 10 patties because fresh every 60 days or before if it is all eaten. We are putting this in 4 ½ x 6 ¾ flat Glassine bags. Bags can be purchased from Uline.

Extras they are adding:

3 cups citric acid  
3 cups mineral salt

They are finding if you mix the grease in before the liquid it is smoother.
